A. LEE J. MENWETTER, Editor

Yes we have quite a number of educated lay critics, and but few real ones however.

Prejudice like the mighty deep seems to swallow up the disinclined, in this American country.

A maiden lady died in the city of Boston Mass., recently, leaving her entire fortune to her favorite tom cat.

Let us be charitable, and do all the good we can. Yes, let's do and not say, and not shout and pray quite so much.

The strip will hardly be opened before September giving our people good ample time to make it here, and prepare for the all go home race.

From all evidence, God will have to appoint a Sergeant at arms in Heaven to keep the forsaken black scandal mongers of Ham quiet.

Our people in the South had better adopt this old adage, "a good run is better than a bad stand," and pull their freight for Langston and Oklahoma.

The Negroes are happier here in Langston and Oklahoma in one hour, than in the South for over 250 years, or may have to be for years to come.

It seems so strange, that you can educate, a colored man to the very highest degree, and dress him in the most pleasing splendor, but he will hate and try to down his own race in spite of faith.

Our preachers will get up in the pulpit, and give his members the very devil about spending their money, and yet when they fail to anti up to the pastor's fund, you will hear a mighty roar from the pulpit.

The citizens of Langston city, eat, walk, sleep, talk, ride, sing play, work, attend churches and socials, and enjoy the comforts of home, with inestimable amenity and liberty. Yet we want more cut here to help the hand go sweeter.

We expect to put over 20,000 Negroes on homes in this coming year, and for this reason we ask you to send the name of your friends that we may send them a paper. That rich land is troubling us, and we must and will trouble the Negroes.

Director DOWNEY says the music of America, when we have a national music, must be based upon the melo-

dies of the negro. As a basis it has the strength of originality and the sweetness of unspoiled nature. Any nation might go much further and fare much worse.

The Editor of the Herald is always out on an inspection,

With a keen edge quill and paper to mark his fast conceptions.

He compile his thoughts, after a little consideration,

And reproduces them printed with no grace prelations

The big fish, the little fish, and minners are all scrutinized.

And you can rest contented that his particulars are not based upon lies.

He is biased to note but absolutely tolerant to all,

Preying freedom and equity with undaunted gall,

The traitors he ghost and their sins will surely recall,

And show no special favors to the large or to the small.

Their doings are briefly printed and sent both far and near,

Paraphrased to your convenience for One dollar and a half per year.

Education, money and land are his plaintive proclamations,

Believing these three exigent to fabricate Negro elevation.

Young men, train your ambition first to the elements of honesty and true manhood; then to words conducted successful, frugal, free, dry goods stores, banks, factories and other commercial profess us, and not to school teaching and preaching, for the world is getting full of them.

Jerusalem: If God would send a chariot down drawn by four of the Arch Angels, put the Negroes and white folks in it and start up to Heaven, some of our Negroes would ask the driver to stop and put such and such a Negro off. It seems to be in the Negro from toe nail to the top of the head, to be prejudiced towards each other.

The reason we are treated so badly by our white friends, is because we as a race stand so far apart, reveal in dissension and have so many gaps down. Now if we would all come together and stick like other races, to each other, we would readily see how quick mob violence and lawlessness would take its flight into oblivion.

One of the worst practices that our mothers are so familiar with is the sending of the little children to corner groceries. Now in most all cases, these groceries are lined with bums and dead beats, using all sorts of language, and this meeting the ears of the little ones, acquires them with the first steps of vanity and debauchery. Stop this thing mothers.

Look here young people, when you hear a young man who against physical labor upon the grounds that it is too hard, dirty or disgraceful just watch him, for 9 times out of 10, you will hear or see an account of his stealing something, and being on route to the penitentiary.

Oh my Our people are always growling, bringing suits and fighting about their being refused at the first class hotels, barbershops, restaurants, Theaters, saloons, and riding in first class cars. Now if they want a free access to all these things, knowing that the white man will never make concession, why in the mischief don't they put their minds and money together and build them?

Look here brethren: you who are in fair circumstances: When you see one of our race in need don't close your hearts and doors against him, but help him. Remember as a people we have been the victims of robbery, brutal outrages, disfranchisement, discrimination and low wages, and trying to overcome the waves of adversity, we will meet with misfortune. We struggle on in hopes remembering that God's promises are sure and deliverance will come by and by. So let us join hearts and hands and tread the chilly streams together.

The Negro Democrats are demanding office and party recognition. They will get it. When the Negro divides politically, and joins every party under the sun, then, and not till then, will he receive recognition as a factor in American politics - Negro Solicitor

That's right, brother Taylor, but you can't make some of our "God bless de publicans" Negroes see this. Never mind, "de publicans" will force them to see it before the end of time, we predict.

Go to h--- with your politics, we have no time for them now. N. J. N. bybucks, we have one eye fastened on several thousand acres of that rich land that is to be opened about September 15th, and the other eye on those 100 years-to-get-arounded Negroes.

We want our people to have some of this land, and for this great aim we are viciously bowing every obstacle down, in order that our people may see the reality in coming and making a run for a free home. Free homes, is the pass word here in Oklahoma, and if you want to join this band, step to the post of determination, and stamp your mind with hope and faith, and the initiation fee is paid.

One of the biggest stumbling blocks that hinder the prosperity of our race is the preaching plague. Now when the radiant rays of the glorious sun become too hot, the shovel and pick grudge me terrors, the plow, hoe and other labor that challenges the physical exertions and produces perspiration and busters the band, as intimated by the codes of business, the very first resort as a refuge from the scorching sun, is a biblican hymn book, and to make sure of bread, they begin on this text, "God loves the cheerful giver." This sort of nuisance never give a cent whether the race prosper or not, just so they get their pay, and hence the result is our people is advised against investing in race institutions and opening Negro enterprises - clearing the ground clear us of such obstacles.

A Philadelphia ice dealer was recently arrested for hiring a young Negroes, who, remonstrated. The ice man was arrested and placed under \$500.00 bonds to appear in the district court. If he had been in Oklahoma the girls would never have preferred charges against him. The kiss would have suited to well. - Negro Solicitor.

Yes, and if this had occurred in the South, the white man would have been censured to h--- and back for stopping at kissing, but if he had gone further, matters not whether from mutual consent or brutal force, he would have been commended in the highest terms: Devil of a big difference isn't it?

The most successful man or woman, race or people, that fears God, loves righteousness and worketh out his own souls salvation with fear and trembling before God. Likewise must we, as a race, work out our salvation - Omaha Neb Enterprise.

Now you see brother Franklin, here is where the mischief comes in. Our people as a race, while working out this soul salvation business do so with fear and trembling before both God and man, and while the southern brothers realizing this thing, take advantage of their weakness and with a shot gun, rope, pistols and loaded irons, work it out for them, thus saving much trouble to many of our people.

At this season number of our boys and girls are thrown upon the tide of life to battle for themselves, and with them it remains to be seen what part of this great melodrama in life they will perform. Having received that essential portion that enables them to some what discern their way, it is left with them solely whether they will cultivate it or not. Let them aim high and work with so ambition to reach it. Let them practice fragility, perseverance and economy and keep in mind that "True manhood and womanhood wins." - Savannah Tribune.
